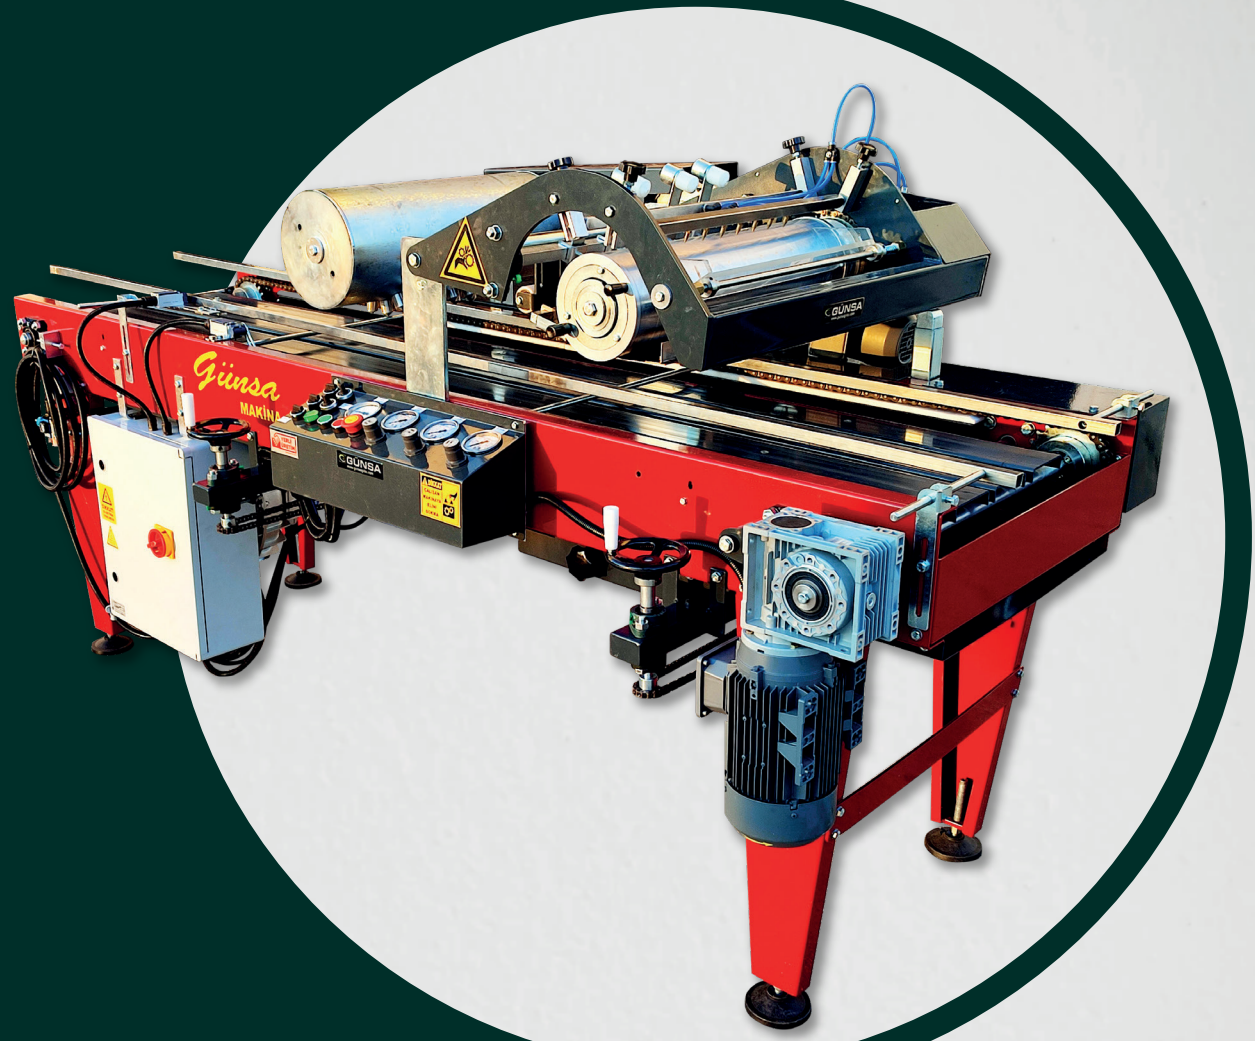
DRUM SEEDER



TECHNICAL DETAILS

Capacity
600 tray/hour

Voltage
380 V

Frequency
50 Hz

Power
4 kW

Dimensions
Width: 120 cm
Length: 250 cm
Height: 120 cm

Weight
450 kg

TECHNICAL SPECIFICATIONS

· It sows seeds in all kinds of trays(stropor,plastic). There is a high chance of success in all kinds of seeds.

· It performs the first drilling operation for each eye on the tray. It leaves seeds in every eye that it catches with vacuum.

· It occurs of two units as drilling and vacuum.

· Drilling and vacuum drums are produced specially according to customer trays.

· Drum changes are simple according to seed size.

· Machine speed is adjustable.
